## **The Origin of the Ego**

We are going to see this topic of the Origin of the Ego. Its purpose is for us to observe distinct aspects that participated in the moment when the Ego was created.

Approximately 18.5 million years ago, the sexes had already separated; we ceased to be androgynous; humanity was divided into Adams and Eves. The feminine bodies were already ready to begin to practice sex in company.

All the Lucifers accepted the challenge, and they told the human beings that if they wanted to be like the Gods, they would have to taste that fruit. The fruit was shared sex. For this they entrusted to the Gurus or Masters the direction of those sex practices. All the couples should go to the Temple for the sex practices on their honeymoon, with two purposes:

- 1. To reproduce the species.
- 2. To create the Superior Existential Bodies of the Being.

Each spark should begin to work with the two trees: the Tree of Life, which was that of sex, and the Tree of Good and Evil,

which was that of Wisdom for Self-Realization. Those two trees, then, have common roots, or share their roots with one another.

At that moment the comet Condor appears and collides with the planet Earth. As a result of that collision of worlds, the terrestrial crust became destabilized; and to stabilize it anew, they sent a sacred commission directed by the archi-physicists and archi-chemists Loissus and Sakaki, that they resolve that problem.

The sacred commission resolved to install in all human beings the Kundartiguador organ, which would stabilize the terrestrial crust. It is to be noted that this experiment had been carried out on other planets of the universe, and simultaneously it permitted establishing the level of Wisdom of each planet.

Likewise, at those moments it was determined that the degree of Wisdom for this planet would be four — that is, planet of Christs or Masters. For the foregoing, the tail of the Kundartiguador was left three and a half days longer than referred to the level of Consciousness. This established the cosmic desiderata of the planet. Translating this phrase: the level of Evil for the tree of Wisdom.

The tail of the Kundartiguador originated on the planet an Astral Tide or Lustful Wave, which unbalanced all human be-

ings, leading them to practice sex outside the Temple. And at the same time, to fornicate or to spill the Creative Sexual Energy outside the amphora.

As a result of this we were expelled from Paradise. And the second nature in the dwellers of the planet was created.

We can observe that up to this moment the sparks were innocent; they did not know Evil. Moreover, the tail of the Kundartiguador was delayed in order that the sparks could arrive at where they had to arrive. The humans became terribly perverse; they became hypnotized and fascinated in Evil, to the point that no longer were they interested in the Self-Realization of the Being. Some began to commit suicide; there was no longer reason to exist.

On account of the foregoing, the sacred commission returned to the planet Earth to take away the Kundartiguador organ, for it had already attained its objectives. But the planet Earth remained in the most absolute materialism. The human beings became accustomed to fornicating, and they became fascinated with this. Even now they prefer to live like animals rather than self-realize themselves.

To the collective fornication was given the name Universal Deluge. The human mind became animal through desire. All the I-s created were taken in pairs to the ark of Noah, so that

on the day they decided to regenerate themselves, they would find the prime matter in the Creative Energy of the Holy Spirit. From there the Love or Fire and the Wisdom or Light would come forth, on learning to Die in oneself.

If you reflect a little on this, you can discover many things: on carrying out the construction of the Existential Bodies with the Creative Sexual Energy, we develop the Christmas tree. There Santa Claus goes on placing the different gifts (virtues, powers, faculties, forces, bodies, etc.). Without the Christmas tree there will be no Individual Christ. And therefore there will be no Gods.

Now you will comprehend why the two trees have common roots — the secrets of the Arcanum A.Z.F., etc.

If the exit took place through sex, the return to Paradise must also be made through sex. If we do not learn to practice Supra-sex, there will be no Regeneration possible. In sex is the possibility of being of every human being. In sex is the possibility of the Second Birth.

With the work in the Three Factors of the Revolution of the Consciousness, we shall draw out all the secrets of the Ark.

Now, the most important thing is to comprehend the hypnotism in which we find ourselves — which does not let us value or have a true objective of existing. If we comprehend the illu-

sion in which we find ourselves with the passing things of the material world, we will see how important it is to begin to work in our interior world.

It is fundamental that we understand very well that there are only two kinds of Marriage:

- 1. Those that are made with the purpose of fornicating — which are all of them. Because all human beings on this planet seek only pleasure and amusement, animal enjoyment without transcendent longings.
- 2. The marriage in which one commits with the Holy Spirit to never fornicate, in order to be able to Self-Realize the Being. In this manner the process called "Regeneration" will begin.

That Regeneration is to recover the lost power. The process we saw in the past conference — that of Genesis — to convert ourselves into Men, to recover all the potency and regenerate our seed.

When one is going to work in the Tree of Life, the Fire and the Water must always go upward and inward. The Ascending Fire is called Kundalini.

If the Fire is lit, all the Black Lodge comes upon us to tempt us; then we have to be very prudent so as not to fall into adultery, because everything would be lost.

But there exists something else. If the person continues fornicating, for each fornication he loses two vertebrae. And if we are going to see, someone who wants to ascend thirty-three vertebrae for seven bodies — well, that is a long work, and it costs much. Approximately twenty-four practices of sex to raise those two vertebrae lost in the fall. For this reason we must comprehend how important it is to practice sex with Love, Fidelity, and Chastity.

From here onward, you can take this into account. The most important: the reproduction of the beast is made through fornication, adultery, and lack of love. When any of these takes place, we work to conquer the Abyss.

If the Ego is to be ended, we have to stop fabricating more Ego. If one does not stop fabricating I-s, the Ego continues growing. There is need to initiate a direct action against fornication, because it is what, on the physical plane, spends all the energy that the physical body condenses.

When a person already has this Knowledge, he has to decide: the definition will be: Angel or Demon — no more. Only those

two alternatives — either he goes by one side or he goes by the other.

*Its purpose is for us to observe distinct aspects that participated in the moment when the Ego was created.*
