The Ray of Creation

Each Universe of the Infinite Space possesses its own Central Sun, and the sum of such Spiritual Suns constitutes...

THE FIRST ORDER — THE PROTOCOSMOS — THE SOLAR ABSOLUTE

The Solar Absolute is formed by multiple Spiritual, Transcendental, Divine Suns.

Much has been said about the Sacred Absolute Sun, and it is obvious that every Solar System is governed by one of those Spiritual Suns. They are truly extraordinary Spiritual Suns, sparkling with infinite splendors in space — Radiant Spheres that astronomers could never perceive through their telescope.

This means that our set of worlds possesses its own Sacred Absolute Sun, in which we live, move, and have our Being — just like all the other Solar Systems of the unalterable Infinite.

The Protocosmos, or First Cosmos, is infinitely Divine, ineffable; there exists in it no mechanical principle; it is governed by the Sole Law.

In the Spiritual Central Sun, governed by the Sole Law, exists the unalterable felicity of the Eternal Living God.

As we move further and further away from the Sacred Absolute Sun, we penetrate into worlds increasingly more complicated, where automatism, mechanicity, and pain are introduced.

The Protocosmos vibrates with the superior musical note DO.

THE SECOND ORDER — THE AYOCOSMOS

It is any Universe of the endless space, which is composed of millions of Galaxies, suns and planets that travel through the infinite space.

It is called the Logoic world.

It is controlled by the three primary forces that regulate and govern all creation. These three laws are: that of the Father, that of the Son, and that of the Holy Spirit.

It vibrates with the note SI.

THE THIRD ORDER — THE MACROCOSMOS

It is any Galaxy of the endless space. They are groupings of millions of solar systems.

Recall now the galaxies. Any of these, taken separately, is certainly a Macrocosm. And ours, the Milky Way, is no exception.

Each is ruled by a central sun; the Milky Way is ruled by the central sun Sirius.

It is controlled by 6 laws.

It vibrates with the musical note LA.

THE FOURTH ORDER — THE DEUTEROCOSMOS

It is any solar system taken separately. Unquestionably, every solar system, no matter the galaxy to which it belongs, whether of matter or antimatter, is a Deuterocosmos.

It is controlled by 12 cosmic laws.

It vibrates with the note SOL.

THE FIFTH ORDER — THE MESOCOSMOS

It is any Planet of the endless space — for example, the planet Earth.

There are as many planets in space as grains of sand in the sea.

Indubitably, any of these, no matter what the center of cosmic gravitation, is by itself a Mesocosm.

It is controlled by 24 laws.

It vibrates with the note FA.

THE SIXTH ORDER — THE MICROCOSMOS

It is any human being of the endless space.

Much has been said about the microcosmos-man. We emphasize the transcendental idea that each of us is an authentic and legitimate Microcosm. However, we are not the only inhabitants of the infinite; it is clear that there exist many inhabited worlds. Any inhabitant of any of the Cosmoses is an authentic Microcosm.

Let us look now frankly at the microcosmos-man; let us examine the germinal cell, and we shall find the 48 chromosomes — vivid representation of the 48 laws that control every human being.

It is controlled by 48 cosmic laws.

It vibrates with the note MI.

The lunar astral body vibrates with the note RE (because it dwells in Limbo).

The lunar physical body vibrates with the note DO.

THE SEVENTH ORDER — THE TRITOCOSMOS

The infernal worlds. Within every planet exists the submerged mineral kingdom with its own atomic hells. These latter are always found located within the interior of any planetary mass, and in the infra-dimensions of nature.

- The first circle, or of the Moon, controlled by 96 laws.
- The second circle, or of Mercury, controlled by 192 laws.
- The third circle, or of Venus, controlled by 384 laws.
- The fourth circle, or of the Sun, controlled by 768 laws.
- The fifth circle, or of Mars, controlled by 1,536 laws.
- The sixth circle, or of Jupiter, controlled by 3,072 laws.
- The seventh circle, or of Saturn, controlled by 6,144 laws.
- The eighth circle, or of Uranus, controlled by 12,288 laws.
- The ninth circle, or of Neptune, controlled by 24,576 laws.

It is to be noted that these nine circles are called the abode of Pluto or the Being, and in them is found 97% of our Essence or

Consciousness trapped.

On submerging ourselves within Laws each time more complex, obviously we become independent in a progressive form from the Will of the Absolute, and we fall into the mechanical complication of all this Great Nature.

If we wish to reconquer Liberty, we must liberate ourselves from so much mechanics and so many laws, and return to the Father. Ostensibly we must struggle tirelessly to Liberate ourselves from the 48, 24, 12, 6, and 3 Laws, in order to truly return to the Sacred Absolute Sun of our System.

Much has been said about the Sacred Absolute Sun, and it is obvious that every Solar System is governed by one of those Spiritual Suns.

GnosticLibrary.org

The Gnostic Library was created with the purpose of compiling a complete collection of the ancient knowledge that was once available, and preserving it for future generations.

Our aim is to preserve the original text and the images of the manuscripts and original books as faithfully as possible. However, due to conversions across multiple formats, we cannot guarantee that this edition is free of errors.
