

The Sacred Fire

GNOSTIC LIBRARY

It is well to understand that the Army of the Voice, the Army of the Word, is Fire. And that this living Fire, that living and philosophical Fire that makes the chaotic matter fecund, is the Cosmic Christ, the "Logos," the Great Word. But for the Logos to appear, for it to come to manifestation, the One must unfold into the Two — that is, the Father in the Mother — and from the union of the two opposites is born the third: the Fire. That Fire is the Logos, the Christ, the Verb that makes possible the existence of the Universe in the Dawn of any creation.

The Sacred Fire

It is well to understand that the Army of the Voice, the Army of the Word, is Fire. And that this living Fire, that living and philosophical Fire that makes the chaotic matter fecund, is the Cosmic Christ, the "Logos," the Great Word. But for the Logos to appear, for it to come to manifestation, the One must unfold into the Two — that is, the Father in the Mother — and from the union of the two opposites is born the third: the Fire. That Fire is the Logos, the Christ, the Verb that makes possible the existence of the Universe in the Dawn of any creation.

The Chaos of the Universe resides right now in our seminal system. Just as God had to fecundate the waters of the Chaos to create the Universe, it falls upon us to do the same — fecundating the waters of our Chaos to bring forth our interior Universe. If we fecundate our spermatic Chaos with the Fire of

the Kundalini, there arises from it the Intimate Christ, the Child of Gold of Sexual Alchemy.

The Kundalini is the Solar Fire enclosed in our seminal atoms, the ardent electronic substance of the sun, which when liberated transforms us into Gods. The causa causorum of electricity we must seek in the Universal Serpentine Fire. That Fire dwells in the electrons.

When the solar and lunar atoms of the seminal system make contact in the triveni, then, by electrical induction, a third force awakens — the Sacred Fire of the Kundalini. On liberating that energy, we enter on the path of Authentic Initiation.

All the power of the Kundalini is found in our seed or sexual energy. The Kundalini is the Fire of the semen. That Fire is the product of Psychological Death.

The Fire purifies all things, transmuting them into ineffable perfections. The Fire has its dwelling in the water; and if we spill those waters, we also spill the Fire and remain in darkness.

Chastity is the foundation of the Great Work. If we wish to transmute our sexual forces, first we must be chaste and not spill a single drop of semen. We must reduce all the elements to their prime matter, dissolving the Ego, in order then to transmute them.

In Alchemy, the Mercury refers to the waters (sexual energy), and the Sulfur is the Sacred Fire that must fecundate the Mercury. The Sulfur mixes with the Mercury and ascends through the medullar canal up to the brain, awakening the superior centers. The surplus of this Mercury fecundated by Sulfur is what must do the creation of the Existential Bodies of the Being. So that the Astral Body, the Mental Body, and the Causal Body are no more than Mercury fecundated by Sulfur.

It is written in the old texts of the ancient Wisdom that the lower orifice of the medullar canal of common ordinary persons is hermetically closed. The seminal vapors open it, so that the sacred serpent may penetrate through there.

The Kundalini develops, evolves, and progresses in accordance with the merits of the heart. The fires of the heart control the ascent of the Kundalini.

He who, after working with the Kundalini, spills the semen, inevitably fails — because the Kundalini then descends one or more vertebrae according to the magnitude of the fault. We must struggle until attaining perfect Chastity.

He who has fabricated the Solar Bodies must afterward perfect them. For that, it is necessary forcibly to eliminate the dry Mercury, which is nothing other than the I-s. If one does not eliminate the I-s, the Existential Bodies do not perfect them-

selves and cannot be re clothed by the distinct parts of the Being. To perfect themselves, they must become vehicles of pure Gold. But they could not become instruments of pure Gold if the dry Mercury and the arsenicated Sulfur were not eliminated. What is the dry Mercury? The I-s. What is the arsenicated Sulfur? It is the carnal, bestial fire of the atomic hells of man. That fire corresponds to the abominable Kundartiguador organ.

When the Bodies remain converted into vehicles of pure Gold, they can then be re clothed by the distinct parts of the Being; and there at last, all of them come to serve as a wrapping for our King — our Intimate Christ. He rises from His sepulcher in the instant that there is a wrapping of that kind, and re clothes Himself with it to manifest Himself here, through the senses, and to work for the suffering Humanity. Thus is how the Lord comes to life; thus does the Intimate Christ — the Magnesium of Alchemy — arise to existence.

Observations

- 1. The erotic flame would never ascend through the medullar canal of couples united by mere personal convenience.
- 2. The ascent of the holy flame on the dorsal spine of adulterous men and women would

be impossible.

- 3. The fire of sexual delights would never rise on the dorsal spine of those who betray the Guru.
- 4. The sexual fire would never ascend through the medulla of drunkards, effeminate, lesbians, drug addicts, murderers, thieves, liars, slanderers, exploiters, greedy ones, blasphemers, sacrilegious ones, etc., etc., etc.

The Sacred Fire It is well to understand that the Army of the Voice, the Army of the Word, is Fire.
